

Rehabilitation of the Daphne Building Complex & the Surrounding Area to be used as Reception, Briefing and Hosting Premises for Holy Mountain Pilgrims.

# Rehabilitation of the Daphne Building Complex & the Surrounding Area

## Brief Description

This project relates to the rehabilitation of the building infrastructure (a total of 4600 m<sup>2</sup>) and of the surrounding area owned by SMSP in Daphne, the port of the Holy Mountain located 10 km NW of the main complex of SMSP.

## Purpose & Object

The reconstructed premises are intended to host pilgrims to the Holy Mountain and provide areas and facilities suitable for gatherings / presentations / exhibitions and libraries within the frame of enhancing the living approach to the Hagiorite monastic tradition and the comprehensive cultural and natural assets of the Athonite State.

The project comprises of **three main phases**:

### Phase A:

- Repair / restoration of the **church of All Saints (drawing #1, photo #2)**
- Rehabilitation / conversion of the traditional SMSP Overseer's House **Papayiannis Building, (drawing #2, photo #2)** to be used for pilgrim accommodation.
- Rehabilitation / conversion of the lumber storage shed **(drawing #3, photo #2)** to be used for / as VIP accommodation, restaurant and presentation hall.
- Restoration of the adjacent surrounding area.
- Budget for Phase **B: € 3.500.000**

# Rehabilitation of the Daphne Building Complex & the Surrounding Area

## Purpose & Object

### Phase B:

- Relocation of the lumber processing facility (**Drawing #7**) – Expansion – Equipment for the manufacturing unit – Lumber Drying Facility.
- Construction of a new sawmill.
- Creation of suitable space and purchase of equipment for the production and storage of raw material and wood chips.
- Construction of the laborers' building.
- Construction of general storage facilities.
- Water supply infrastructure, Renewable Energy Sources.
- Budget for Phase B: **€ 2.500.000**
